Dear Sir,

RE.LEGAL OPINION ON THE WRONGFUL CONVICTION OF CARMEN RICE

The reference is made from the caption mentioned above.

Having gone through the **BRIEF CASE PROCEEDINGS, WITNESS STATEMENTS AND CONVICTION OF CARMEN RICE** we would like to advice as follows.

BRIEF FACTS.

That Carmen Rice, was picked by Richland police department on November 2003, and was wrongfully convicted of a Capital Offence of Murder and Robbery.

Having gone through the proceedings and the conviction of Carmen Rice we observed the following

1. They wrongfully convicted her of the offence she didn't do and her statement was never disclosed in court by the prosecution quoted under paragraph 08 of page one that the material facts of the Exculpatory evidence were never disclosed in court during the trial of Carmen Rice.
2. All the witness statements and the evidence by the people who testified in the case never mentioned her name as the murderer or a robber and all the evidence point on different people one is **IRIS BRYANT AND HER COUSIN named TINA or TIKA AND NOT CARMEN RICE** hence she was wrongfully convicted.
3. Further, according to the case proceeding there is no any witness from her side that was called to testify in the case hence the trial and the conviction against her was unfair because it didn't follow proper procedure, the case against her wasn't proved beyond doubt.
4. The statements by the one of the witness (Nathaniel Hallman) is very contradictory since it involved some hearsay evidences.

Therefore, it is our humble opinion that Carmen Rice is wrongfully convicted and we pray that she be freed from the police custody because she is innocent of the offences she was found guilty of and convicted.

Yours sincerely

EVALINE PELLO LAIZER
